Instructions:

For guidance on completing this form, please reference the FY 2017 CoC Priority Listing Detailed Instructions. Submit technical question to the e-snaps HUD Exchange Ask A Question (AAQ) at <https://www.hudexchange.info/get-assistance/>.

4-1. Complete the fields below for each eligible renewal grant that is being reduced during the FY 2017 reallocation process. Collaborative Applicants should refer to the final HUD-approved FY 2017 Grant Inventory Worksheet to ensure all information entered here is accurate.

Reduced Project Name: BEC RA 2016

Grant Number of Reduced Project: MN0192L5K021607

Reduced Project Current Annual Renewal Amount: \$143,519

Amount Retained for Project: \$126,705

Amount available for New Project(s): \$16,814
(This amount will auto-calculate by selecting "Save" button)

4-2. Describe how the CoC determined that this project should be reduced and include the date the project applicant was notified of the reduction. (limit 750 characters)

The BEC RA project was reduced based on the CoC's Reallocation Policy. The policy allows for involuntary reallocation from existing projects due to performance and/or fund management (recaptured or misused funds) to new/expansion projects that align with CoC priorities. The BEC RA project had a substantial amount of funds recaptured in the past two grant periods but generally meets performance standards. As such, the CoC reduced the project to preserve the approximate amount actually spent plus 10% to allow for changes in income/rent, resulting in a reduction of \$16,814 for the project. The project has accepted the reduction and will continue to serve the same number of households at the reduced fund level.

4-2. Describe how the CoC determined that this project should be reduced and include the date the project applicant was notified of the reduction. (limit 750 characters)

The Hearth SE 2017 project was reduced based on the CoC's Reallocation Policy. The policy allows for involuntary reallocation from existing projects due to performance and/or fund management (recaptured or misused funds) to new/expansion projects that align with CoC priorities. The Hearth SE project has had a substantial amount of funds recaptured in the past two grant periods but generally meets performance standards. 4-2. Describe how the CoC determined that this project should be reduced and include the date the project applicant was notified of the reduction. (limit 750 characters)

The Progress Program project was reduced based on the CoC's Reallocation Policy. The policy allows for voluntary reallocation and involuntary reallocation from existing projects due to performance and/or fund management (recaptured/misused funds) to new/expansion projects that align with CoC priorities. The Progress Program indicated willingness to reallocate funds during the project review period. Because the project type is a priority, the CoC reduced the project the minimum amount required to accommodate a proposed new SSO-CES project that was also a CoC priority. The resulting reduction was \$1,856 (5% of the total grant). The project has accepted the reduction and will continue to serve the same number of households at the reduced fund level.
