Help

- * The unsheltered point-in-time (PIT) count section should be completed only if you completed an unsheltered count in 2012.
- * Enter the number of sheltered and unsheltered adults who belong in each subpopulation category.
- * As in the Homeless Populations chart, this chart must be completed using statistically reliable and unduplicated counts or estimates of homeless persons based on the point-in-time count conducted during the last ten days of January.
- * Only adults should be included in the counts for this chart, except for chronic homeless families and Unaccompanied Children (those under age 18) category.
